I.		Basis of the report				
1.		_	ents of the international application:*			
		the international	application as originally filed.			
	X	the description,	pages 1, 3-4, 6-8, 10-18 as originally filed,			
			pages , filed with the demand,			
•			pages 2, 5, 9, received on 4 February 2005 with the letter of 4 February 2005			
	X	the claims,	pages 20-21, 23 as originally filed,			
			pages, as amended (together with any statement) under Article 19,			
			pages , filed with the demand,			
			pages 19, 22 received on 4 February 2005 with the letter of 4 February 2005			
	X	the drawings,	pages 1/6-6/6 as originally filed,			
			pages , filed with the demand,			
		•	pages, received on with the letter of			
		the sequence listing part of the description:				
			pages , as originally filed			
			pages , filed with the demand			
			pages, received on with the letter of			
2.	which	th regard to the language, all the elements marked above were available or furnished to this Authority in the language in ich the international application was filed, unless otherwise indicated under this item.  ese elements were available or furnished to this Authority in the following language which is:				
		the language of a	translation furnished for the purposes of international search (under Rule 23.1(b)).			
		the language of publication of the international application (under Rule 48.3(b)).				
		the language of t and/or 55.3).	ne translation furnished for the purposes of international preliminary examination (under Rules 55.2			
3.		th regard to any nucleotide and/or amino acid sequence disclosed in the international application, the international oreliminary examination was carried out on the basis of the sequence listing:				
	$\Box$	contained in the	nternational application in written form.			
		filed together wi	h the international application in computer readable form.			
		furnished subseq	uently to this Authority in written form.			
		furnished subseq	uently to this Authority in computer readable form.			
•		The statement that the subsequently furnished written sequence listing does not go beyond the disclosure in the international application as filed has been furnished.				
		The statement the been furnished	at the information recorded in computer readable form is identical to the written sequence listing has			
4.		The amendments	have resulted in the cancellation of:			
		the desc	ription, pages			
		the clair	ns, Nos.			
		the draw	•			
5.		go beyond the di	een established as if (some of) the amendments had not been made, since they have been considered to sclosure as filed, as indicated in the Supplemental Box (Rule 70.2(c)).**			
*	Rej rep	Replacement sheets which have been furnished to the receiving Office in response to an invitation under Article 14 are referred to in this report as "originally filed" and are not annexed to this report since they do not contain amendments (Rules 70.16 and 70.17).				
**	An	Any replacement sheet containing such amendments must be referred to under item 1 and annexed to this report				

## INTERNATIONAL PRESEMINARY EXAMINATION REPORT

Claims

International application No.

NO

PCT/AU2002/001446

V. Reasoned statement under Article 35(2) with regard to novelty, inventive step or industrial applicability; citations and explanations supporting such statement

1.	Statement	tement			
	Novelty (N)	Claims 1-26	YES.		
	·	Claims	. <b>NO</b> ,		
	Inventive step (IS)	Claims 1-26	YES		
	• •	Claims	NO		
	Industrial applicability (IA)	Claims 1-26	VES		

## 2. Citations and explanations (Rule 70.7)

None of the individual citations disclose all the essential features as claimed. Claims 1-26 are novel and involve an inventive step.

The invention is directed to a distributor plate having a single wear element being positioned on a body to alone cover an outer surface of the body onto which material is received.
